

## **Kahnawake Fire Brigade and Ambulance Service**

### Patient Care Report

#### Data Fields

The following are specific data fields collected for each ambulance call

1. Date
2. Call time
3. Age
4. Sex
5. Number of no transports (refusals)
6. Clinical codes/presenting problem (see list attached)
7. Protocols followed (see attached list)
8. Pick up location
9. Transport location (by hospital)
10. Inter-hospital transports (non-emergency)
11. COVID-19 status
12. Mental health related calls

## PROTOCOLS & CODES

APP	Appreciation of Clinical Condition	PED.1	Alerted Level of Consciousness
SIN.1	Multi Casualty Incident	PED.2	Convulsions
SIN.2	START & JUMPSTART Modified	PED.3	Dyspnea
IND.1	Exposure to Hazardous Materials	PED.4	Obstruction of Airways
IND.2	Exposure to Toxic Substances	PED.5	Allergic Reaction or Anaphylaxis
IND.3	Exposure to Toxic Vapours	PSY.1	Behavioral Problem
REA.1	Adult Cardiac Arrest (medical)	PSY.2	Transport without Consent
REA.2	Ceasing Resuscitation Measures (medical)	MED-LEG.1	Child Abuse
REA.3	Adult Cardiac Arrest (trauma)	MED-LEG.2	Irreversible Death
REA.4	Ceasing Resuscitation Measures (trauma)	MED-LEG.3	DNR
REA.5	Pediatric Cardiac Arrest (medical)	MED-LEG.4	Obvious Death
REA.6	Pediatric Cardiac Arrest (trauma)	MED-LEG.5	Physician or Midwife Present
REA.7	Combitube for Hypoventilation	TRAU.APP	Clinical Appreciation (trauma)
REA.8	Transfer Care, Intervention with AED	TRAU.0	Spinal Immobilization Indications
REA.9	Respiratory/Ventilatory Assistance	TRAU.1	Adult Trauma
REA.10	LVAD	TRAU.2	Trauma – Pregnant Woman
REA.11	Uncontrollable Vomiting	TRAU.3	Trauma – Isolated Extremity
ENV.1	Diving Accident	TRAU.4	Ocular Trauma or Burn
ENV.2	Burns	TRAU.5	Pediatric Trauma
ENV.3A	Heat Stroke		
ENV.3B	Heat Exhaustion	1	Abdominal Pain
ENV.4	Electrocution	2	Allergy/poisoning
ENV.5	Frostbite	3	Bite/Animal Attack
ENV.6	Hypothermia	4	Assault/Sexual Assault
ENV.7	Submersion (drowning)	5	Non-traumatic Back Pain
MED.1	Weakness (no specific complaint)	6	Respiratory Problems
MED.2	Altered Level of Consciousness	7	Burns/Explosions
MED.3	Bradycardia or Tachycardia	8	Inhalation of Toxic Substances
MED.4	Headache	9	Cardiac arrest
MED.5	Non-Traumatic Shock	10	Chest Pain
MED.6	Acute Confusion (Delirium)	11	Choking
MED.7	Convulsions	12	Seizures
MED.8	Dyspnea	13	Diabetic Problem
MED.8A	Dyspnea of Cardiac Origin	14	Drowning
MED.9	Abdominal Pain	15	Electrocution
MED.10	Chest Pain	16	Eye Problems
MED.11	Epistaxis	17	Fall
MED.12	Intoxication or Drug Use	18	Headache
MED.13	Obstruction of Airways	19	Cardiac Problem
MED.14	Paralysis	20	Exposure to Heat/Cold
MED.15	Loss of Consciousness or Fainting	21	Hemorrhage/Laceration
MED.16	Diabetic Problem or Hypoglycemia	22	Accident – Inaccessible
MED.17	Allergic Reaction or Anaphylaxis	23	Overdose/Ingestion
OBS.1	Pregnant Woman in Labour	24	Pregnancy/Delivery
OBS.2	Imminent Birth	25	Psychiatric/Behavioral
OBS.3	Imminent Birth (breech)	26	Sick Person
OBS.4	Evaluation and Care of Newborn	27	Weapon/firearm Trauma
OBS.5	Convulsions 3 <sup>rd</sup> Trimester/Eclampsia	28	CVA
OBS.6	Prolapsed Cord	29	Motor Vehicle/Road Accident
OBS.7	Vaginal Bleeding	30	Traumatic Injury
		31	Unconscious/Fainting
		32	Unknown Problem
		33	Inter-Hospital
