

Results from workshop: draft recommendation content validity and prioritization exercise 10-19-2022

Note: Below are the results of the workshop content validity and prioritization exercises on October 19, 2022. Results from the workshop focus groups as well as the online survey (n=13) are presented below. Based on the workshop and survey results, the draft recommendations below were redrafted into the final recommendations presented in the evaluation report.

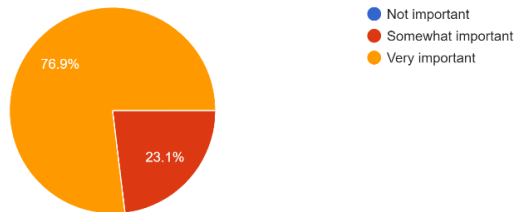

Draft organizational needs recommendation:

- (1) That programs and services regularly and proactively assess their organizational needs, to identify gaps in resources, knowledge, practices and/or skills.

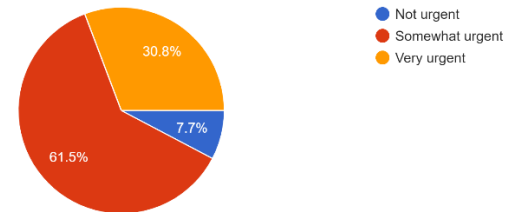

Survey results:

Very relevant (%)	Quite relevant (%)	Very & Quite Relevant (%)	Essential (%)	Useful, but not essential (%)	Essential and/or useful (%)
38.5	53.8	92.3	92.3	7.7	100

Importance
13 responses

Urgency
13 responses

Focus group(s) results:

- Very relevant; Very relevant
- Essential; Essential
- Very important
- Somewhat urgent (note: urgency can depend on the respective program/service and context)

Results from workshop: draft recommendation content validity and prioritization exercise 10-19-2022

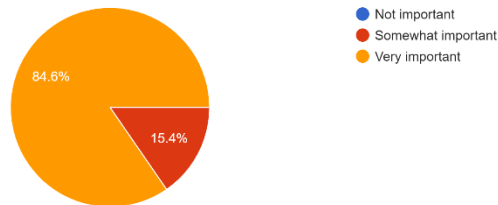

Draft Service delivery models recommendations:

(2) That all service delivery models have updated standards and protocols put into place.

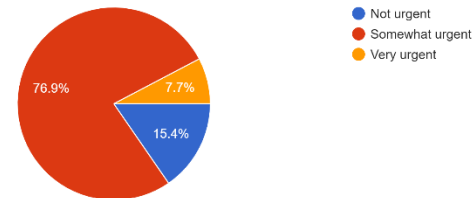

Survey results:

Recommendation	Very relevant (%)	Quite relevant (%)	Very & Quite Relevant (%)	Essential (%)	Useful, but not essential (%)	Essential and/or useful (%)
2	30.8	53.8	84.6	69.2	30.8	100
